

BECOME A CORROSION SOLUTIONS EXPERT

As the world's leading expert on corrosion science for water-based fire sprinkler systems, we created ECS University (ECSU) to educate individuals in the fire sprinkler industry like you. We provide the necessary knowledge and skills to fight corrosion, along with managing the changes and developments in the fire sprinkler industry. We are invested in the success of our partners. We realize that our success is tied to yours.

Why learn with ECSU?

- Four (4) ways to learn (Online, Virtual & In-Person)
- **Tuition Free**
- CEUs offered
- Learn from top experts
- Get a certificate upon completion
- Advance your understanding of corrosion mitigation
- ECSU programs NICET Recognized
- Programs approved for CEUs by CA Fire Marshal's Office

Live Virtual Sessions

The 3-day course (2 hours per day) are offered as a **live webinar** presentation. Allows you to interact directly with the instructor. See website for available dates.

Online Courses

ECSU Online is a **on-demand** video learning course. Learn at your own pace with course videos and quizzes. Access courses from anywhere through our website.

In-Person

Two (2) full day classes that are tuition free and held at our world headquarters in St. Louis, Missouri. This course allows you to have hands on experience with our equipment and interaction with the instructor.

Training Thursdays

These 1-hour subject specific sessions are offered as a **live webinar** presentation. Allows you to interact directly with the instructor.

Interested in Specialized Training?
